Chapter 1. Introduction	1
Anger: A Major Problem in Children and Adolescents	1
Manifestations of Anger: Historical Perspective and Societal Trends	1
The Need for a Developmental Framework	2
Developmental Patterns.....	2
Stability in the Style of Anger Expression Over Time.....	2
Diagnostic Considerations	2
Distinctions Between Anger and Diagnostic Disorders.....	2
Anger in the <i>DSM-IV-TR</i>	3
Conceptualizations of Anger	3
Defining Healthy Versus Maladaptive Anger.....	3
Dimensional Versus Categorical Perspectives.....	4
State-Trait Taxonomy	4
Past Problems With Anger Research and Conceptualization	4
State-Trait Taxonomy of Anger-Related Concepts	5
Defining the State-Trait Conceptual Structure of the STAXI-2 C/A.....	5
State Anger	5
Trait Anger	6
Anger Expression	6
Anger Control.....	6
State-Trait Taxonomy: Practical Applications	7
Relationship Between the State-Trait Anger Taxonomy and Clinical Phenomena.....	7
Anger Related to State-Trait Findings With Suicidal Populations	7
Research Findings With the STAXI, STAXI-2, and STAXI C/A (Spanish Version) With Young Populations	8
STAXI-2 C/A General Overview	11
Rationale for Development	11
General Description of the STAXI-2 C/A	12
Usefulness of the STAXI-2 C/A for Clinicians and Researchers.....	12
Major Differences Between the STAXI-2 and the STAXI-2 C/A	12
Chapter 2. Development and Standardization of the STAXI-2 C/A	15
Rationale, Initial Scale Construction, and Evaluation.....	15
Item Selection.....	15
Evaluation of Item and Scale Performance.....	16
Standardization of the STAXI-2 C/A	17
Selection and Description of the Normative Sample.....	17
Norming Procedures.....	17
Influence of Demographic Variables.....	17
Sample Weighting Procedure	17
Normality of Scale and Subscale Distributions.....	18
Derivation of Percentile Ranks.....	18
Derivation of <i>T</i> Scores.....	18

Chapter 3. Reliability and Validity	21
Reliability	21
Internal Consistency	21
Intercorrelations of STAXI-2 C/A Scales and Subscales.....	22
Standard Error of Measurement (<i>SEM</i>)	23
Validity.....	23
Content Validity	23
Construct Validity: Discriminant and Convergent Correlational Analyses.....	23
Criterion-Related Validity	25
Chapter 4. Administration and Scoring	29
Description of the STAXI-2 C/A Test Materials	29
Appropriate Populations and Settings	29
Professional Qualifications of the Examiner	29
Administration Instructions	30
Missing Responses.....	30
Scoring the STAXI-2 C/A	31
Chapter 5. Interpretation	37
Role of the STAXI-2 C/A Within the Broad Context of Assessment	37
General Overview of the Interpretation Process	37
Developmentally Based Norms	38
Advised Use of the STAXI-2 C/A Percentiles and <i>T</i> Scores	39
Interpretation of Individual Items and Items of Concern	39
Interpreting the STAXI-2 C/A: Step-by-Step Guide.....	39
Step 1. Determine the Validity of Responses to the STAXI-2 C/A Protocol	40
Step 2. Consider the Validity of the STAXI-2 C/A Protocol in an Environmental Context	40
Step 3. Review the State Anger Scale (<i>S-Ang</i>) and Subscale (<i>S-Ang/F</i> , <i>S-Ang/VP</i>) Scores and Look for Congruence With Clinical Observations at the Time of Testing	40
Step 4. Review the State Anger Scale (<i>S-Ang</i>) Score and Compare the State Anger Subscale (<i>S-Ang/F</i> , <i>S-Ang/VP</i>) Scores.....	40
Step 5. Review the Trait Anger Scale (<i>T-Ang</i>) Score and Compare the Trait Anger Subscale (<i>T-Ang/T</i> , <i>T-Ang/R</i>) Scores	41
Step 6. Compare the State Anger Scale (<i>S-Ang</i>) and Subscale Scores (<i>S-Ang/F</i> , <i>S-Ang/VP</i>) With the Trait Anger Scale (<i>T-Ang</i>) and Subscale (<i>T-Ang/T</i> , <i>T-Ang/R</i>) Scores.....	41
Step 7. Compare the Anger Expression-In Scale (<i>AX-I</i>) Score With the Anger Expression-Out (<i>AX-O</i>) Scale Score.....	41
Step 8. Examine the Anger Control Scale (<i>AC</i>) Score and Compare With the Anger Expression Scale (<i>AX-I</i> , <i>AX-O</i>) Scores.....	41
Step 9. Conduct a Qualitative Item-by-Item Analysis to Assess for Clinically Significant Responses	42
Step 10. Review and Evaluate the Overall Profile and Formulate Interpretation of the STAXI-2 C/A.....	42
Interpreting the STAXI-2 C/A: Scoring Classifications and Treatment Implications	43
State Anger (<i>S-Ang</i>) Scale.....	43
State Anger-Feelings (<i>S-Ang/F</i>) Subscale.....	46
State Anger-Expression (<i>S-Ang/VP</i>) Subscale	47
Trait Anger (<i>T-Ang</i>) Scale.....	47
Trait Anger-Temperament (<i>T-Ang/T</i>) Subscale	48
Trait Anger-Reaction (<i>T-Ang/R</i>) Subscale	49
Anger Expression-Out (<i>AX-O</i>) Scale	49
Anger Expression-In (<i>AX-I</i>) Scale	50
Anger Control (<i>AC</i>) Scale	51
Relationships Among the State Anger and Trait Anger Scales and Subscales.....	51

Case Examples	52
Case Example 1. Psychological Problems Treated in an Outpatient Mental Health Setting: D.S.	52
Anger Experience	53
Anger Expression.....	53
Anger Control	56
Clinical Case Conceptualization and Treatment Considerations	56
Profile Changes Following Successful Treatment	56
Case Example 2. Medical Problem Identified in a School Setting: K.D.....	57
Anger Experience	57
Anger Expression.....	57
Anger Control	60
Clinical Case Conceptualization and Treatment Considerations	60
Profile Changes Following Successful Treatment	61
Case Example 3. Forensic Issues Assessed in an Inpatient Crisis Unit Setting: A.G.	61
Anger Experience	62
Anger Expression.....	62
Anger Control	62
Clinical Case Conceptualization and Treatment Considerations	65
Profile Changes Following Successful Treatment	65
Sample Psychological Report for Case Example 1: D.S.	65
References.....	67
Appendix A. Raw Score to Percentile and T-Score Conversions for the STAXI-2 C/A Total Normative Sample	75
Appendix B. Raw Score to Percentile and T-Score Conversions for the STAXI-2 C/A Normative Sample by Age and Gender.....	77
Appendix C. Qualitative Descriptors and Interpretive Guidelines for the STAXI-2 C/A High and Low Percentile Scores.....	85
